Protein Structure &
Molecular Enzymology

Vol. 1079, 1991

Cumulative Contents

Regular Papers

Mechanism of dioxygen formation catalyzed by vanadium bromoperoxidase from *Macrocystis pyrifera* and *Fucus distichus*: steady state kinetic analysis and comparison to the mechanism of V-BrPO from *Ascophyllum nodosum*
H.S. Soedjak and A. Butler (U.S.A.) 1

Vanadate inhibition of ATP and *p*-nitrophenyl phosphate hydrolysis in the fragmented sarcoplasmic reticulum
V.I. Vashchenko, R.S. Utegalieva and O.V. Esyrev (U.S.S.R.) 8

Isolation, characterisation and growth-related changes of an HMG-like protein from microplasmodia of *Physarum polycephalum*
R.J. Heads and B.G. Carpenter (U.K.) 15

Influence of polyfluorination of the phenylalanine ring of angiotensin II on conformation and biological activity
P.R. Bovy, D.P. Getman, J.M. Matsoukas and G.J. Moore (U.S.A., Canada) 23

The primary structures of four subunits of the human, high-molecular-weight proteinase, macropain (proteasome), are distinct but homologous
G.N. DeMartino, K. Orth, M.L. McCullough, L.W. Lee, T.Z. Munn, C.R. Moomaw, P.A. Dawson and C.A. Slaughter (U.S.A.) 29

Conformational interpretation of intramolecular electron transfer in Met^5-enkephalins between Tyr and Met(S:.Br) radical
B. Vesterman, K. Bobrowski, J. Betins, G.V. Nikiforovich and K.L. Wierzchowski (U.S.S.R., Poland) 39

Separation of electronic and hydrophobic effects for the papain hydrolysis of substituted *N*-benzoylglycine esters
C.M. Compadre, C. Hansch, T.E. Klein, J. Petridou-Fischer, C. Dias Selassie, R.N. Smith, W. Steinmetz, C.-Z. Yang and G.-Z. Yang (U.S.A.) 43

Reactivation of vanadium bromoperoxidase; inhibition by metallofluoric compounds
M. Tromp, T. Thach Van and R. Wever (The Netherlands, Vietnam) 53

A mouse DNA repair enzyme (APEX nuclease) having exonuclease and apurinic/apyrimidinic endonuclease activities: purification and characterization
S. Seki, S. Ikeda, S. Watanabe, M. Hatsushika, K. Tsutsui, K. Akiyama and B. Zhang (Japan) 57

Purification and hydrolytic action of a chitosanase from *Nocardia orientalis*
K. Sakai, R. Katsumi, A. Isobe and F. Nanjo (Japan) 65

Chaos-theoretical analysis of possible structural quantities for globular proteins
Y. Kubota, H. Takahashi, T. Yoshino and T. Tsuchiya (Japan) 73

In vitro poly(ADPribosylation) of estrogen-induced proteins from the oviduct of the lizard *Podarcis s. sicula* Raf.
P. Quesada, G. Ciarcia, M.R. Faraone-Mennella, M. Malanga, A. Cardone and B. Farina (Italy) 79

Purification and functional characterisation of the pyruvate (monocarboxylate) carrier from baker's yeast mitochondria (*Saccharomyces cerevisiae*)
M.J. Nałęcz, K.A. Nałęcz and A. Azzi (Switzerland) 87

On the inhibition of cholinesterase by D-tubocurarine
J. Stojan and M.R. Pavlič (Yugoslavia) 96

The kinetics of the hydroxylation of procollagen by prolyl 4-hydroxylase. Proposal for a processive mechanism of binding of the dimeric hydroxylating enzyme in relation to the high k_{cat}/K_m ratio and a conformational requirement for hydroxylation of -X-Pro-Gly- sequences
L. De Jong, I. Van der Kraan and A. De Waal (The Netherlands) 103

Purification and characterization of rat ovarian 20α-hydroxysteroid dehydrogenase
K. Noda, K. Shiota and M. Takahashi (Japan) 112

Report

Immunological characterisation of different meprin species in mice
A.V. Flannery, G.C. Macadam and R.J. Beynon (U.K.) 119

Regular Papers

Spectroscopic evidence for NADH-induced conformational changes in rabbit muscle aldolase
A.I. Sytnik, Y.V. Chumachenko and A.P. Demchenko (U.S.S.R.) 123

Site of freeze-thaw damage and cryoprotection by amino acids of the calcium ATPase of sarcoplasmic reticulum
R.J. Lalonde, J.R. Lepock and J. Kruuv (Canada) 128

Free calcium and calpain I activity
P. Cottin, S. Poussard, J.P. Desmazes, D. Georgescauld and A. Ducastaing (France) 139

The binding of nitrate to the human anion exchange protein (AE1) studied with ^{14}N nuclear magnetic resonance
W.L. Galanter and R.J. Labotka (U.S.A.) 146

Hemoglobin polymerization in sickle cells studied by circular polarized light scattering
C.T. Gross, H. Salamon, A.J. Hunt, R.I. Macey, F. Orme and A.T. Quintanilha (U.S.A.) 152

Magnetization of manganese superoxide dismutase from *Thermus thermophilus*
J. Peterson, J.A. Fee and E.P. Day (U.S.A.) 161

Calorimetric analysis of antifreeze glycoproteins of the polar fish, *Dissostichus mawsoni*
T.N. Hansen, A.L. DeVries and J.G. Baust (U.S.A.) 169

A calmodulin endoproteinase from mitochondrial membranes
L.S. Wright, J.H. Collins, K.A. Finn and F.L. Siegel (U.S.A.) 174

Kinetics and mechanisms of reduction of Cu(II) and Fe(III) complexes by soybean leghemoglobin α
D.A. Bakan, P. Saltman, Y. Thériault and P.E. Wright (U.S.A.) 182

Mitochondrial endonuclease activity in the rat varies markedly among tissues in relation to the rate of tissue metabolism
K.L. Houmiel, M. Gerschenson and R.L. Low (U.S.A.) 197

Effect of cholesta-3,5-dien-7-one on human liver aldehyde dehydrogenase
M.T. Ryzlak, W. Ambroziak and C.P. Schaffner (U.S.A.) 203

Effect of linking allyl and aromatic chains to histidine 170 in horseradish peroxidase
M. Urrutigoïty, M. Baboulène, A. Lattes, J. Souppe and J.-L. Seris (France) 209

Isolation and complete amino acid sequence of two fibrinolytic proteinases from the toxic *Saturnid* caterpillar *Lonomia achelous*
T. Amarant, W. Burkhart, H.L.V. III, C.L. Arocha-Pinango and I. Parikh (U.S.A., Venezuela) 214

Purification of the proteinase from group *B streptococci* that inactivates human C5a
J.F. Bohnsack, X. Zhou, P.A. Williams, P.P. Cleary, C.J. Parker and H.R. Hill (U.S.A.) 222

The importance of precise positioning of negatively charged carboxylate in the catalytic action of human lysozyme
M. Muraki, K. Harata, Y. Hayashi, M. Machida and Y. Jigami (Japan) 229

Rapid Reports

Inactivation of enzymes and an enzyme inhibitor by oxidative modification with chlorinated amines and metal-catalyzed oxidation systems
K. Maier, H. Hinze and H. Holzer (F.R.G.) 238

Tissue inhibitor of metalloproteinases-2 inhibits the activation of 72 kDa progelatinase by fibroblast membranes
R.V. Ward, S.J. Atkinson, P.M. Slocombe, A.J.P. Docherty, J.J. Reynolds and G. Murphy (U.K.) 242

Regular Papers

Duck liver malic enzyme: sequence of a tryptic peptide containing the cysteine residue labeled by the substrate analog bromopyruvate
J. Satterlee and R.Y. Hsu (U.S.A.) 247

An investigation of *Chromatium vinosum* high-potential iron-sulfur protein by EPR and Mossbauer spectroscopy; evidence for a freezing-induced dimerization in NaCl solutions
W.R. Dunham, W.R. Hagen, J.A. Fee, R.H. Sands, J.B. Dunbar and C. Humblet (U.S.A.) 253

A fluorometric study with 1-anilinonaphthalene-8-sulfonic acid (ANS) of the interactions of ATP and ADP with rubisco activase
Z.-Y. Wang and A.R. Portis, Jr. (U.S.A.) 263

Polymerization and solubility of Ni(II)-Fe(II) Hybrid Hb S
K. Adachi, J. Kim and N. Shibayama (U.S.A., Japan) 268

26S multicatalytic proteinase complexes decrease during the differentiation of murine erythroleukemia cells
T. Tsukahara, H. Sugita and S. Ishiura (Japan) 273

A principal neutralizing domain of human immunodeficiency virus type 1 interacts with proteinase-like molecule(s) at the surface of Molt-4 clone 8 cells
T. Murakami, T. Hattori and K. Takatsuki (Japan) 279

Purification and characterization of glutathione S-transferases from rat pancreas
S.S. Singhal, S. Gupta, M. Saxena, R. Sharma, H. Ahmad, G.A.S. Ansari and Y.C. Awasthi (U.S.A.) 285

Purification and properties of 5,10-methylenetetrahydromethanopterin dehydrogenase and 5,10-methylenetetrahydromethanopterin reductase, two coenzyme F_{420}-dependent enzymes, from *Methanosarcina barkeri*
B.W.J. Te Brömmelstroet, W.J. Geerts, J.T. Keltjens, C. Van der Drift and G.D. Vogels (The Netherlands) 293

Determination of disulfide array and subunit structure of taste-modifying protein, miraculin
H. Igeta, Y. Tamura, K. Nakaya, Y. Nakamura and Y. Kurihara (Japan) 303

Amino acid sequence analysis of the β- and γ-subunits of eukaryotic initiation factor eIF-2. Identification of regions interacting with GTP
U.-A. Bommer, R. Kraft, T.V. Kurzchalia, N.T. Price and C.G. Proud (F.R.G., U.K.) 308

Binding of retinoids and β-carotene to β-lactoglobulin. Influence of protein modifications
E. Dufour and T. Haertlé (France) 316

The formation of complexes between human plasminogen activator inhibitor-1 (PAI-1) and sodium dodecyl sulfate: possible implication in the functional properties of PAI-1
P. Gaussem and E. Anglés-Cano (France) 321

Fast heme release from inactive proteins
J. Paul, M.L. Smith and K.G. Paul (Sweden) 330

Chemical modification of bovine pancreatic deoxyribonuclease with phenylglyoxal – The involvement of Arg-9 and Arg-41 in substrate binding
T.-H. Liao, H.-C. Ho and A. Abe (China, U.S.A.) 335

The lactate dehydrogenase of the icefish heart: biochemical adaptations to hypoxia tolerance
G. Feller, J.-P. Pauly, A. Smal, P. O'Carra and C. Gerday (Belgium, Ireland) 343

Purification and characterization of thymidine kinase from regenerating rat liver
I. Tsukamoto, Y. Taniguchi, M. Miyoshi and S. Kojo (Japan) 348

Erratum 353
